

Conseil, Fourniture et Formation en Équipements Techniques et Scientifiques

Introducing Neo-Tech

NEO-TECH S.A., based in Milmort near Liège in Belgium, expert in the study and realization of didactic, scientific and technical equipment projects for secondary, technical and higher education, vocational training, high schools, universities and research and control laboratories.

NEO-TECH S.A. operates mainly on the African continent, and draws its strength from 35 years' experience in the field, enabling us to supply equipment, delivery on site, install and commission, and guarantee training for users, teachers, trainers and technicians responsible for future maintenance of the equipment.

We put our experience at the disposal of our potential customers (ministries, universities, vocational colleges) to help them upgrade and develop their education systems.

To do this, we have developed our [Experiment sets for science and technology](#) for the study of science through the manipulation of experiments, so that we can offer them to a wide range of teachers to help them improve students' scientific knowledge.

Our mission

Contribute to :

- Train young people ;
- Ensure better career guidance for adults;
- Provide the skills needed for technical, economic and social development in partner countries.

Our assets

1. More than 35 years' experience in supplying teaching and scientific equipment to general, technical and vocational secondary schools, as well as to high schools, universities and research laboratories;
2. A multidisciplinary team of 6 engineers and a staff of over 15 people;
3. Numerous partnerships with world-renowned manufacturers;

NEO-TECH SA
