

# CHEMISTRY SET EC1

## NT-22.00.00

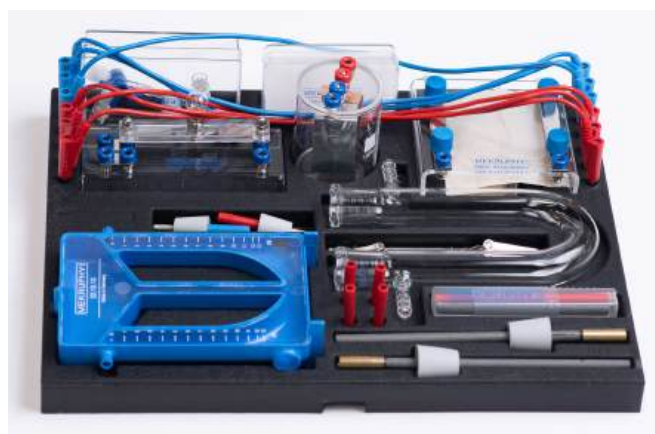

### EC1 - Electrochemistry 1

#### 18 experiments

- Electrical conductivity (4 exp.)
- Ion conductors
- Galvanization
- Electrolysis
- Ionic migration
- Metals and metal ions
- The electrochemical series
- The voltaic cell
- Daniell cell
- Leclanché battery
- Lemon battery
- Rechargeable battery
- Faraday's laws (3 exp.)

REQUIRES SETS CH1 & CH2

CH4

### Necessary accessories

- Lab power supply 6/12V AC | 0-12V DC
- Universal support stand
- Multimeter
- Pocket balance
- Chemicals kit
