

MECHANICS SET ME6

NT-54.00.00

NEO-TECH
NTec
EXPERIMENT
CASE

ME6 - Vibrations and waves

16 experiments

- Period and amplitude (2 exp.)
- Period and mass (2 exp.)
- Period and spring stiffness
- Period and pendulum length
- Damping and frequency
- Damping and amplitude
- Undamped oscillations
- Forced oscillations
- Superposition of oscillations (2 exp.)
- Coupled pendulum
- Standing transverse waves
- Standing longitudinal waves
- Polarisation

Necessary accessories

- Universal support stand
- Universal track
- Lab power supply 6/12V AC / 0-12V DC
